Please try to use this time constructively. Einstein was building ray guns in Kindergarten. So should you.

You literally just sit and wait. Should be free.. Not a serious FPS game, go in and try, THAT'S IT!

The overall gameplay is not OK, felt like TF2's atmosphere though but the aiming and the movements aren't quite good.

The weapons are OK, only 4 exist and for me the sniper was so bad.

The graphics are lowly rendered but it's the theme, and the animations are bad.. I don't recommend buying this until they add more of the music. There's none of the newer songs included, and the newer songs are the best ones.. Well, just got done playing the human side route. I must say, this game is very adorable! I highly recommend this game if you are a fan of visual novels.

Pros:

*Character sprites are VERY well done. The shading and proportions are excellent, and don't make me feel like I'm looking at a newgrounds flash game made by a 14 year old.

*Very well written story. Dialogue is well done, the characters, while not very in depth, I feel are quite decently written.

*Gameplay does not appear to have any bugs at all

*This game does appear to have some replay value

*This game is fully voiced, even the minor characters (all two of them). Voices are in Japanese.

Cons:

*This game is rather short (I am a huge speed reader, so actual gameplay was less than an hour for me. Then again, I can read a 600 page book in two hours). If you are a slower reader, I imagine this would take a bit longer.

*The story, while well written, could use a bit of fleshing out. I guess I just like more details and meat to a story.

*Price does feel a bit high to me. Then again, this is probably because of the voice acting.

*Plotline seems to skip around a bit, but given this is a light-hearted story, it doesn't really detract from anything.

All in all, if you love visual novels and reading, this is a good game. If you are a huge otome and VN fan like me, you won't mind the price. Otherwise, you may want to wait until this goes on sale.. Both 2 of my Direct Input gamepads are not working. No response from tech support.

Do you really expect all 4 players to have Xbox 360 gamepads?

This is my main reason for thumb down. 4 player local games sholdn't have problems like this.

- Matches are too quick for any hiding tactics, you will never use them. While you sit there like a vegetable "in an ambush" the other players will get one kill after another and you will lose the game.

- Its easy to camp, should be fixed. It all happens because spawn points are fixed: even bots unintentionally camp you. You will respawn quickly so AI will be near you when you respawn, and it *will* resume attacking you right away.. This game... I never thought I'd find a COG game I genuinely disliked, but this game really does nothing for me. I'm trawling through it trying to complete achievements, but dang.

PROS:

cool concept, interesting magical/Vaether manipulation stuff, the occult stuff is all pretty rad

CONS:

lots of your choices feel like they don't matter or they lead to really bizarre outcomes. feel like someone's following you?

BREAK THE DUDE'S FINGERS. don't want to wind up in some kind of threesome? be VERY careful with your choices or it'll just pop up on you. first playthrough, the character my character was romancing just randomly hooks up with somebody else and you're supposed to just roll with that. also Loren is supposed to be endearing/sympathetic with the forgetfulness and the being bullied by another character but Loren is irritating, and if you don't like having them around, you still have to pander to their needs a lot and treat them like a delicate flower. We should have the CHOICE to be a jerk to Loren, just like we should have the CHOICE to be nice/mean to other characters. Don't force friendships/relationships - it totally breaks the illusion of choice.

Interesting game that I really enjoyed... It's a shame the developers didn't find proper success with this game.

Worth playing if you're looking for an interesting story with some puzzles.. So I wanted to like this game, but I just can't. You start with an axe, you need leather to make anything, so you go kill deer, to make a knife, for example, you will need to kill 3 deer. You can't always pick up rocks, eating the raw meat is better for you than the cooked, if you kill a bunny it slides around in a huge circle so you can't open it. The campfire only uses sticks, the sleeping bag needs to be placed on a base because the ground is too uneven, and you can't actually sleep in it. This is not a game about New Zealand or Maori, you are not even in NZ, plus we as a people would never be so wasteful killing 6 or 7 deer and cutting down 15 trees just to have 1 person survive the night.. Marmoset Hexels is great. I got it in a Humble Bundle a while ago, and while I don't use it that much (normally when I do anything regarding images it's just messing around in Photoshop to make some memes for my friends, and I'm not that great at actually creating new works of art or anything) but if you're like me and you find isometric and pixel art interesting, and you actually want to create art or animations using those styles or similar ones (Hexels isn't just limited to those kinds of things, they have other interesting modes as well, and I'm pretty sure you can combine multiple types in one piece), then I'd highly recommend this. Once you learn the keyboard shortcuts and how to manage some of the settings, it's relatively easy to use, while still having enough options to allow for a high degree of customization.

Is gud.. somebody [\u2665\u2665\u2665\u2665](#)ing call the ordo hereticus. IF YOU WANT WIPEOUT:

- Try the [Slipstream GX alpha right now, and support them.](#)
- [Look forward to Formula Fusion from R8 Games, ex-wipeout devs.](#)
- [Look forward to Redout from 34BigThings.](#)

[This is a mobile game, so the racing feels very artificial and casual. It's not Wipeout, and it's not trying to be Wipeout.](#)

[From that standpoint, it is well made and I enjoyed what the game is actually about. The craft partially steers itself, and your job is to adjust your position on the track to pick up powerups and use them at the right time. It's not about getting the perfect raceline, it's about aggressive weapon usage and activating shields when they're really needed.](#)

[Other reviews cite control issues, but I think they've been fixed. I had no trouble after I fiddled with the settings. The music is great. The voice acting is bad enough to be funny.. OMG \[\u2665\u2665\u2665\u2665\]\(#\) this game, just came back from the electronic store to buy another keyboard because my last one ended in the wall because of that f@*\\$%ng game...](#)

[Well played Boogygames...](#)

[This game should be used as a tool in an anger management therapy.... Need for speed doesn't have sh*t on this masterpiece. I'm enjoying it.](#)

[Runs reasonably, good price, no crashes.](#)

[Zombies are fun to fight and the darkness of night time is scary.](#)

[Some quality of life improvements are needed. Currently it's a bit clunky. For example having to press 2 buttons when you should only have to press one.](#)

[Overall, I'm pleased and worth the money.](#)

[Updated on the 10/03/19.](#)

[A recent patch introduced the ability to play as a zombie. Unfortunately this ability is not restricted to PvP areas. Players can destroy your bases/loot in PvE areas too. There are some issues with the zombie player ability which I won't mention that make this easy and any defences you put up useless.](#)

[Fair warning to all people thinking of buying: this game no longer has Player Vs Environment areas.](#)

[Updated 21/03/19 Early access was removed from the steam page without any announcement, update or comment. Snail games continue their pump and dump strategy. They have no respect for their customers or business integrity. This is the 3rd game they've done this. Avoid.. I liked the art and minimalistic approach, but gameplay is not for the people whose not so called "speedrunners" \(which I am not anymore\). I think I will pass this one.. Really want to like it though.](#)
